

# Table of Contents

---

## Preface

### Chapter 1: Introduction to Toxicology and its Outsourcing

- Pre-Industrial Toxicology
- Toxicology & the Chemical Industrial Revolution
- Toxicity Testing
- Toxicology Terminology

### Chapter 2: Principles and Practices in Outsourcing Toxicology

- Introduction
- How to Outsource
- Essentials of a Contract
- Negotiation

### Chapter 3: Outsourcing of Toxicology - A Potted History

- Covance Inc
- Life Science Research Inc (Huntingdon Laboratories)
- Charles River
- Harlan
- NOTOX
- Sequani
- Laboratory of Pharmacology & Toxicology (LPT)
- CIT

### Chapter 4: Review of Selected Major CROs

### Chapter 5: Summary of the Regulatory Environment

- USA
- Europe
- Japan
- Good Laboratory Practice (GLP)
- GLP & Outsourcing

## Chapter 6: The Preclinical Market

- REACH
- Preclinical CROs by Country
- Rate of Formation of Toxicology CROs
- Market Size Analysis

## Chapter 7: The Use of Non Animal Testing in Toxicology

- Introduction
- Validation Organisations
- Validation Studies
- The Validation Process

## Chapter 8: Conclusions and Future Challenges

- Introduction
- Technical Challenges
- Genomics
- Proteomics
- Metabolomics
- Biomarkers
- Biopharmaceuticals
- Political Challenges
- Afterword

## Appendix: Profiles of Preclinical and Toxicology CROs

- Accelera (Italy)
- Advinus (India)
- Aptuit (USA)
- Charles River (Edinburgh)
- CIT (France)
- Covance (USA)
- Harlan (USA) (Including SafePharm (UK) and RCC (Switzerland))
- LSR (Huntingdon)
- ITR (Canada)
- LAB Research (Including ScanTox (Denmark) and TRC Hungary)
- Laboratory of Pharmacology and Toxicology (Germany)
- Maccine (Singapore)
- MPI (USA)
- NOTOX (Netherlands)
- Quotient Bioresearch (UK)

- Ricerca (USA)
- Sequani (UK)
- TNO (Netherlands)
- WIL (USA)
- WuXi (China)
